Product Description:

With a formulation that is specifically designed to resist the damaging effects of the sun's UV rays, this UV Base Coat is the perfect way to ensure that your surfaces stay looking their best for longer. The 1000 MI size of this primer makes it the ideal choice for larger projects or for those who need to apply the primer to multiple surfaces.

In addition to its UV-resistant properties, this Primer is also low VOC, making it a more environmentally friendly choice for those who are concerned about the impact of their products on the environment.

Whether you are looking to protect your pet's enclosure, your acrylic artwork, your PCB designs, or your glass surfaces, our UV Resistant Primer is the perfect choice. With its strong formulation and transparent color, it will provide a strong base coat that will keep your surfaces looking great for longer.

Features:

Applications:

One of the key features of the Tucai UV Primer is its waterproof formula. This makes it ideal for use on a wide range of surfaces, including pet products, acrylic, PCB, and glass. Whether you need to protect your outdoor pet enclosures or your delicate glassware, this UV base coat has got you covered.

The Tucai UV Primer is also cruelty-free, so you can rest easy knowing that no animals were harmed in the making of this product. And with a delivery time of only 7 days, you won't have to wait long to start enjoying the benefits of this UV inhibiting primer.

So when should you use the Tucai UV Primer? Here are a few scenarios where this product is particularly useful:

If you have a pet that spends a lot of time outside, you can use this primer to protect their outdoor enclosures from UV damage.

If you work with acrylic or PCB materials, you can use this UV base coat to protect your finished products from fading or discoloration over time.

If you have delicate glassware that you want to keep looking beautiful for years to come, the Tucai UV Primer can help protect it from the sun's harmful rays.

Overall, the Tucai UV Primer is a versatile and effective product that can help protect your surfaces from the damaging effects of UV radiation. So why not give it a try today?

Customization:

Tucai's UV Blocking Primer is a liquid formulation that offers UV protection for your surfaces. Imported from China, this primer is waterproof and comes in a 1000 ml container. It is an environment-friendly product that does not contain SPF. The Primer UV Protection is priced at \$56 and has a delivery time of 7 days.
